SECURITY BEGINS AT THE GATE

ARMORED SECURITY CABINS
&
ARMORED MOBILE SHIELDS

Not Standard. Custom-Made for You.

Every project is different.
Security solutions should be too.

At Arma Kontrol, we understand that every field requirement is unique. That is why we do not offer standard solutions; we develop customized armored security solutions tailored to each project.

We provide maximum protection with systems designed according to your operational requirements, manufactured in compliance with the highest ballistic standards.

Not standard products,
but **security solutions** tailored to you.

PROJECT-SPECIFIC DESIGN

Customized design and engineering solutions for every need.

CUSTOM DIMENSIONS

Maximum compatibility with dimensions customized according to the application area.

BR7 BALLISTIC PROTECTION

Maximum-level ballistic security compliant with international standards.

MOBILE / FIXED OPTIONS SUITABLE FOR THE FIELD

Mobile or fixed solutions adaptable to every environment.

About Us

ARMA KONTROL has been developing and manufacturing high-security perimeter protection systems since **2006**. Its road blockers, bollards, arm barriers, and access control solutions contribute to securing facilities in many parts of the world.

Leveraging its field experience and R&D capabilities, ARMA KONTROL has expanded into ballistic protection solutions with its **BR7 Armored Security Cabins** and **BR7 Armored Mobile Shields**. Developed for high-threat environments in accordance with international standards, these systems are designed to protect personnel serving in critical facilities.

With completed projects in more than **73 countries** and over **8,000** references, ARMA KONTROL continues to add value to the security industry by combining local engineering expertise with advanced security technologies.

TESTED SOLUTIONS

FIELD-ORIENTED DESIGN

LONG-LASTING SYSTEMS

ARMA BASTION

MOBILE ARMORED SECURITY CABIN

Enclosed-area, ballistic-protected mobile cabin.
Provides maximum protection and operational security in the field.

 **BALLISTIC PROTECTED BODY**

 **PENETRATION RESISTANT GLASS OPTION**

 **360° PROTECTION AREA**

 **MOBILE AND FAST DEPLOYMENT**

 **SUITABLE FOR ALL WEATHER CONDITIONS**

NOT A BARRIER, COMPLETE PROTECTION.

A mobile security solution providing four-sided protection for personnel with open-top ballistic shields.

Technical Specifications

- Series: Ballistic Protected Guard Cabin
- Dimensions: 66x180 (1 unit) / 200x180 (set)
- Protection Class: BR6-BR7
- Ballistic Thickness: 14.20 mm – 15.00 mm (BR7)
- Weight (approx.): 260 kg (BR7) (+20 kg) / 780 kg (BR7) (+60 kg)
- Ballistic Glass Dimensions: 50x35 cm / 40x25 cm (viewing area)
- Firing Port Size: 20x12
- Gun Port Quantity: 2+1 unit (unit) (right+left) / 6+3 unit (set) (right+left)
- Series: Rugged, All-Weather Protected
- Dimensions: 140 cm x 100 cm x (192+185) (h)
- Glass Type: 6 mm Solid Polycarbonate
- Door Dimensions: 70x180 cm Solid Polycarbonate (6 mm)
- All parts are bolted and can be disassembled and reassembled.

ARMA SHIELD

MOBILE BALLISTIC SHIELD

A rapidly deployable open-area security solution with ballistic protection.

 **BALLISTIC-PROTECTED BODY**

 **IMPACT DEFLECTION WITH ANGLED SURFACE**

 **LIGHTWEIGHT AND PORTABLE DESIGN**

 **FAST DEPLOYMENT AND OPERATION**

 **OPERATIONAL MOBILITY**

RAPID RESPONSE. INSTANT PROTECTION.

An ideal mobile shield solution for emergency situations and areas requiring rapid intervention.

APPLICATION AREAS

Temporary Operation Areas

Control Checkpoints

Crowd Management

Emergency Security Response

Technical Specifications

- Series: Ballistic Protection Shield
- Protection Level: BR6-BR7
- Steel Thickness: 10.00 mm (BR6) / 14.00 mm (BR7)
- Weight (Per Unit): 190 kg (BR6) / 285 kg (BR7)
- Dimensions: 70 × 185 cm (single unit) / 225 × 185 cm (set)
- Ballistic Glass Size: 45 × 30 cm
- Firing Port Size: 20 × 12 cm
- Number of Wheels: 3 (per unit) / 9 (set)
- Warranty Period: 2 Years
- Extended Warranty: Available
- Ballistic Protection Warranty: 10 Years

BR7 ARMORED SECURITY CABIN

1600 x 1600 mm

**BALLISTIC
PROTECTED BODY**

**PENETRATION-
RESISTANT GLASS OPTION**

**360° PROTECTION
AREA**

**DURABLE STRUCTURE
FOR HARSH CONDITIONS**

NOT A SHIELD, COMPLETE PROTECTION...

Unlike open-top ballistic shields, this security solution provides personnel with four-sided protection.

THE LAYERED HARMONY OF ENGINEERING AND DESIGN

Designed with the principle that strength lies in the details, this structure reveals the engineering hidden behind the product's exterior aesthetics.

This exploded-view illustration allows you to examine every layer of the structure, from the foundation to the roof. It demonstrates how each component comes together to create a flawless whole. From the highly durable body structure to the technological equipment, every detail has been engineered to deliver maximum protection, reliability, and long-term performance.
